## **Origin of ingredients**

Langage Farm source milk from our own herd of pedigree Channel Island cows kept at our site in Plympton, Devon, as well as a number of other local Channel Island herds via Milk Link. The cattle are kept on the Farm, which allows us total control on all aspects of individual cow welfare and ultimately product quality. Each cow has an annual yield of approximately 4400 litres and produces milk with an average butterfat of 5.8% and a protein level of 3.8%. This lends itself to the luxury quality characteristic associated with our products. All added ingredients are sourced from our approved suppliers.

## **Processing/ Treatment**

This product is pasteurised via batch pasteurization controlled processed. This process is controlled via digital units designed to give consistent temperatures to ensure targets are reached on every batch.

The units are independently monitored on our planned maintenance programme with this part of the process being highlighted in our HACCP plans as a critical control point.

## **Consumer Target Groups Suitability**

As a result of the process followed and the nature of results gained historically we deem this product safe for consumers of all ages to enjoy.

This product is not suitable for people with an intolerance to milk.
